1. Product Introduction

1.1 Overview
The MBT-1100 is equipped with the latest GPS solution for fast and accurate fix on GPS signals. This latest round of technology advancements gives the users an “instant on” feel, and the experience in navigation becomes more natural. The dimension of 69.5(L) x 23(W) x 20(H) and weight only 38g, making it an ideal solution to carry everywhere.

1.2 Main Features
- NMEA0183 compliant protocol
- Extreme fast TTFF at low signal level.
- Adopt TCXO as GPS core clock source
- Industrial Standard
- Selectable Baud Rate
- WAAS / ENGOS is supported

1.3 Product Notification
- Charger operating temperature range 0 ºC to +50 ºC
- Discharger operating temperature range -20 ºC to +60 ºC
- Battery Storage temperature range -20 ºC to +60 ºC
- 10hr at full charge continuous operation mode.
- Humidity range up to 95% no condensing

1.4 Application
- PDA and Cellular Phone Navigation
- Consumer wireless GPS
- Automotive Vehicle Tracking
- Personal Positioning
- Sporting and Recreation
## 1.5 Specification

2. Before Start

2.1 Check the Package Content
Before you start using MBT-1100, please check out if your package includes the following items. If any item is damaged or missed, please contact your reseller at once.

- MBT-1100 Bluetooth GPS datalog receiver
- Car Charger
- CD
- AC Adapter (optional)
- USB cable
- PU GRIP PAD

2.2 Power Button (Right View)
2.3 LED Display

2.4 Hardware Features

2.4.1. Power Button
Power ON / Power OFF

2.4.2. Bluetooth Status LED (Blue)
Glowing - Bluetooth is on and ready to transmit.

2.4.3. GPS Status LED (Green)
Glowing - Position is fixed.
Steady light – Device is on but position is not fixed.
2.4.4. Memory Status LED (Red)
Glowing – Memory is full.

2.4.5. Battery Status LED (Amber/Yellow)
None - Battery has adequate power supply.
Amber - Power is low. Charging immediately is required.
Yellow - Connected to power charger, charging.
LED off - Battery is fully charged.

2.5. Getting Started

2.5.1. STEP 1: Turn on Receiver and Wait for GPS Fix
If the position has not been fixed yet, the Green LED will be still. If the position has been fixed, the Green LED will be Glowing.
You are ready to connect to your Bluetooth-enabled mobile device and use your GPS application.

2.5.2. STEP 2: Connect to Bluetooth-Enabled Devices
From your Bluetooth-enabled handheld device, execute Bluetooth application software to search MBT-1100 and then connect it to your device.
If the connection between your device and MBT-1100 is successful, the Blue LED will be Glowing.
Note: Type in pin code=0000 during configuration.

2.5.3. STEP 3: Connect to your Navigation Software
- Load your GPS mapping or routing software, along with the corresponding maps of the areas that you are occupying or plan to travel to.
- Start the application. Make sure the application is set for the COM port that your Bluetooth-enabled mobile device will use for serial communication. Now you should be ready to use your GPS application as directed by the user documentation that came with the software. More configurations may be necessary.
- Refer to the following software application user manual to set up the parameters of the device via Bluetooth radio.
2.6 How to use Car Charger to charge your handheld device

- Connect car charger into your adapter connector of MBT-1100.
- Plug adapter connector into handheld device connector and plug car charger into cigar-lighter.
3. Utility Installation

The Main Menu of Installation CD shows as above.

- Click the **Install USB Driver (Windows 2000/XP/2003)** or **Install USB Driver (Windows Vista family)** to install the USB Driver, which is needed when you connect the MBT-1100 to your PC or Notebook.
- Click the **PC Software** to install the software application.
- Click the **User Manual** to open the user manual of MBT-1100.
- Click the **View Royaltek Website** to link our [http://www.royaltek.com](http://www.royaltek.com), please make sure your PC connects to Internet first.
- Click the **Browse CD Contents** to open the explorer to browse the files within the CD.
3.1 Install USB Driver (Windows 2000/XP/2003) or (Windows Vista family)

Install the USB Driver from CD.

When screen shows the installation window as follows:

Click “Next> to next page”, or click”<Back” to back last stage or “Cancel” to give up installation.

Please click “Finish” to finish the Installation.
For USB Driver Vista version, if re-install, please click “<YES>” to remove the driver. If click “<NO>”, install may occur hand up problem.
3.2 Install Data download Utility

Click "Next>" to next page, or click"<Back" to back last stage or "Cancel" to give up installation.

To the License Agreement page: Click “I accept the terms in the license agreement” then click “Next>” to next page, or click”<Back” to back last stage or “Cancel” to give up installation.
Click "Install" to start installation. Or click "Back" to back last stage or "Cancel" to give up installation.

**Ready to Install the Program**

The wizard is ready to begin installation.

Click install to begin the installation.

If you want to review or change any of your installation settings, click Back. Click Cancel to exit the wizard.
Start installation.

Please click "Finish" to finish the Installation.
Finally you will see the icon on windows desk.
3.3 Transfer data to your PC or Notebook

Usage Notes:
(1) When you turn on the power button, it starts to search the GPS Signal. After the GPS position fixed, it will begin to record and save the position data.
(2) If you want to stop recording the GPS data, just turn the power off.
(3) When download or erase data form MBT-1100, Receiver still continues record and save the position data.
(4) The time of the log data of MBT-1100 is UTC Time. User doesn’t need to adjust the Clock setting of a camera.

3.3.1 Connect MBT-1100

- Turn on the power of MBT-1100 and use the USB cable to connect to the USB port on PC.
- Check the COM port of MBT-1100 first. Click “Start” → “Control Panel” → “Performance and Maintenance” → “System”, and you will see the System Properties dialog box; click on “Hardware” tab and then the “Device Manager” button. Expand the “Ports (COM & LPT)” item, and the “Prolific USB-to-Serial Com Port” is the COM port of your MBT-1100.

Open data download Utility

For the First using

Step 1: Open the designated serial port and the button show “Connect”.
3.3.2 Download Data

Step 1: Change page to “Data Download” menu bar.

Step 2: Press “Get Data” button and select NMEA output folder.

Step 3: When download finish, there will be a warning message to ask for erasing memory.
3.3.3 Get and Set MBT-1100 Device Status

Step 1: Change to “Device Status” menu bar.

Step 2: You can review the MBT-1100 default setting configuration.

◆ Time Interval (user adjustable)

  Default setting is 15secs
  1sec ~ 60secs, user adjustable
  5Hz: Record data in every 0.2 second

◆ Data Type (user adjustable)

  There are 5 options for user to choose the data items to be saved in the MBT-1100.

1: UTC Time, Longitude, Latitude, will be saved.
2: UTC Time, Longitude, Latitude, Altitude, will be saved.
3: UTC Time, Longitude, Latitude, Altitude, Velocity, will be saved.
4: UTC Time, Longitude, Latitude, Altitude, Velocity, Delta Distance, will be saved.
5: All data, include UTC Time, latitude, longitude, altitude, speed, distance, PDOP, HDOP, VDOP, No of SV in used, SV info(SNR, Elevation, Azimuth), for this mode, you will get the full sentence of $GPGGA,$GPGSA,$GPGSV,$GPRMC,$RTDIST, will be saved.

Note: $RTDIST,A,3,1.3,0.8,1.1,0.01*45

◆Memory Full Option (user adjustable)

The default memory operation setting is “Stop”.
If the memory is full then the system will stop to record.

◆ Memory Erase
Erase all memory.

◆ Log Method
Check the log will save when button pushed.
Log by time

◆ Log config
Show the Flash Usage.

Step 3: User adjustable: Memory Full Option, key in the Time Interval.

When you done the configuration setup, press the “Set Log Config.” button to save the setting to the receiver.

Finally, these setting take effect.
3.3.4 Get the Data Logger Data Downloader revision information

Step 1: Change to “About” menu bar

User can get the Royaltek Data Logger Data Downloader version.
