2	Glowing Orange LED indicates power is in charging
3	Glowing Blue LED indicates Bluetooth is connected Blinking Blue LED indicates Bluetooth is not fixed
4	Glowing Green LED indicates position is fixed Blinking Green LED indicates position not fixed

Getting Started

To make MBT-1000 work with your devices, a simple pairing step is required for the first time. (Please follow the pairing instruction for Blue Tooth from your PDA or PC manufacturer.) To get MBT-1000 into pairing mode, all you need to do is simply switch on the power button.

Once MBT-1000 is properly set up and connected to your PDA or PC, please refer to your navigation software guidebook for instruction on navigation operation. MBT-1000 works with all NMEA enabled navigation software.

Tips

1. Place your MBT-1000 below the windshield for car navigation.
2. Cars that are equipped with heat dissipation films for the windshield and windows will degrade the GPS performance.
3. For the most accurate position fix results and quickest acquisition time, please make sure that your MBT-1000 is not in motion but stationary and in open spaces.
4. The high sensitivity and minimalist design make MBT-1000 an ideal candidate for personal navigator. With the integrated strap loop, users can easily wear the unit.
